EVAN REZNICEK

SKILLS

From the moment I manipulated my first DOM Element, I never looked back. Now coding has become part of my daily routine, it's the first thing I do in the morning, and it's often the last thing I think about before bed.

OBJECTIVE

JavaScript Developer looking to provide value to respectable organizations. I have adopted the MERN stack but also have extensive experience with Microsoft-SQL/ T-SQL. My main technologies revolve around JS, HTML, CSS, React, MongoDB, Express, Node.js & more.
